Sections 1 to 9 of the PCR sets out details of the proposal. Does your organisation supports AEMO's assessment of the proposal? If no, please specify areas in which your organisation disputes AEMO's assessment (include PCR section reference number) of the proposal and include information that supports your organisation's rationale for not supporting AEMO's assessment.	Simply Energy supports AEMO's assessment of the proposal, provided the implementation is a part of the holistic program of works for the east coast initiatives IN003/20 (Gas Life Support) as well as IN011/20 (east coast CDN and CDR), As Simply Energy indicated earlier, Simply Energy would agree to make WA market's CDN/CDR transaction from csv to xml, as well as inclusion of CDR transaction, when harmonised with other Gas jurisdictions, to avoid bespoke-build requirements for WA Gas.
